- ✧ **2005: Tune in @ Your Library**
 PL0261 PL
 A 313 p. 2005
 The "Tune in @ Your Library" theme will help local public libraries across the state bring music and sound in a variety of creative ways into all their summer programming. To keep students interested in reading during the summer, local libraries will be offering free reading programs that twist! While the emphasis during the school year is largely on direct reading instruction, the 2005 campaign will promote the value of reading as a leisure activity that also increases reading comprehension. Research has shown that unstructured reading for pleasure of materials that children select themselves is one of the most powerful tools to increase reading comprehension, speed and vocabulary.
 Books and Reading; NYS Summer Reading Program; Activity Programs in Education; Children's literature
- ✧ **The Adventures of Huckleberry Finn Reading Activity Kit**
 K05030 KT
 I 2008 LAKESHORE LEARNING MATERIALS
 This is a hard copy activity kit, click the pick button to order. This reading kit contains a CD (audio book) with corresponding activity book, readers response notebook and a readers log book. Master sheets are provided to copy for student use and to avoid writing in the books. This is for children grades 4-6. (07-04131 Lakeshore Learning Materials)
 Audio Book; Audio Books; Developing Writing Skills; Reading; Literature
- ✧ **Balanced Diet**
 DM0992 DM
 IJ 20 min 2007 VISUAL LEARNING
 This is a digital selection, click the play button to start. Provides the basic knowledge to achieve a balanced diet. The new USDA food pyramid is illustrated through graphics. Help plan a diet consisting of a variety of foods from the major food groups based on age, gender and activity level. (abc 07-08 visual learning)

- ✧ **Best Books for Young Adults, 3rd Ed.**
 PL0251 PL
 346 p. 2007
 Lists by genre and summaries of proven or potential reading appeal for the young adult. The lists include genre of acceptable literary quality and reflect the cultural diversity of the reader. ISBN: 0-8389-3569-9
 Young adult literature; Books and Reading; Teenagers; Best Books; Bibliography
- ✧ **The Biology Classics: Paramecium, Hydra, Planaria, Daphnia**
 DM0968 DM
 JS 31 min 2006 BIOMED
 This is a digital selection, click the play button to start. Paramecium Observations show how it moves, feed, digests and assimilates nutrients, achieves water balance, deploys defensive weapons, reproduces and engages in the sexual exchange of genetic material. The narrated observations utilize state of the art microscopy, techniques to present a compelling new picture of Paramecium's life. Hydra Observations of Hydra show feeding behavior, detailed microscopy of stinging cells used in capturing prey, two digestive processes (cellular and extracellular), Locomotion, reproduction by budding, development of sex organs, and symbiotic guests, both external and internal. Planaria The cross-eyed flatworm, Planaria, is both scavenger and predator depending upon opportunity. Observations show food-seeking behavior, the flatworm's feeding method, locomotion (produced by a carpet of cilia), internal anatomy, and reproduction through the remarkable process of regeneration. Daphnia is a classic study in arthropod behavior and anatomy. In living subjects we examine: eye, brain, jaws, intestine, swimming legs with gills, its beating heart, and two kinds of eggs, those that hatch directly into female daphnia, and resistant eggs that carry the species through period of freezing and drying. (07-04118 Biomed Associates abc)
- Digital Media; Digital Science; Biology; Paramecium, Hydra, Planaria, Daphnia
- ✧ **The Biology of Lakes, Ponds, Streams, and Wetlands**
 DM0985 DM
 JS 46 min 2006 BIOMED
 This is a digital selection, click the play button to start. The Weedy Shallows: This unit places many of the organisms studied in biology into an ecological perspective: hydras, planarians, annelids, aquatic insects, rotifers, and protists, all interesting organisms that provide food for fish and other vertebrates. Open Water Environments: Adaptations for planktonic life are observed in Daphnia and other cladocerans, copepods, rotifers, and planktonic algae. Bottom Environment: Explores bacterial decomposition, recycling of materials, adaptations for bottom life, and ecological relationships in the bottom community. Stream Life, Inhabitants, and Adaptations: This unit takes a revealing underwater look at the highly specialized organisms that live in rapids, under rock communities, and in slower waters. Vernal Pools: Investigates adaptations for life in temporary wetland environments. (07-04118 biomed associates abc)

New Titles

- provided on the T-4 bacteriophage and retroviruses such as HIV. The bacteria section uses compelling microscopy of living bacteria to examine their structure, physiology, behavior, and the vital roles these microbes play in the biosphere, including oxygen production (cyanobacteria), decomposition, nitrogen fixation, and as parasites as well as helpful symbionts. Twelve minutes of additional live observation of a variety of bacteria can be used to introduce or recap the lesson, or play as visual ambiance during laboratory work. - * **Strategies that Work: teaching comprehension for understand.**
PL0260 PL
A 339 p. 2007
Multiple Copies Series - Through its focus on instruction that is responsive to kids' interests and learning needs, the first edition of Strategies That Work helped transform comprehension instruction for teachers across the country. For them, this new edition will be a welcome extension of that work. Those coming to it for the first time will find a current and essential resource. When readers use these strategies, they enjoy a more complete, thoughtful reading experience. Engagement is the goal. When kids are engaged in their reading they enhance their understanding, acquire knowledge, and learn from and remember what they read. And best yet, they will want to read more! ISBN: 157110481X
Reading Comprehension; Reading; Education, Elementary; Thought & thinking; Study & teaching; Books and Reading; Children
