Books and Reading; Reading Comprehension; Reading; Digital Reading; Reading With Meaning; Debbie Miller, Author; Lit. - Children's Stories

### \* **Book Kit For Mental Images**

K05012 UB  
PI PM 2005 Follett  
*Reading With Meaning & Debbie Miller Series* - This is a hard copy unit book kit that correlates with Reading With Meaning and the teachings of Debbie Miller. Proficient readers create mental images during and after reading. These images enhance comprehension and can be used to draw conclusions, recall details and text after it has been read. The details give depth and dimensions to reading and readers adapt images as they continue to read to incorporate new information in the text. This kit contains the following titles: Color Me a Rhyme: Nature Poems for Young People by Jan Yolen; Creatures of Earth, Sea, and Sky by Georgiqa Heard; The Napping House by Audrey Wood; Night in the Country by Cynthia Rylant; The Salamander Room by Anne Mazer and When I'm Sleepy by Jane Howard.

Books and Reading; Reading; Content Area Reading; Dev & Read Skills - Reading; Reading With Meaning; Debbie Miller, Author

### \* **Books For Reluctant Readers**

K05020 UB

Denman, Chill by Colin Frizzell,

See No Evil by Diane Young, Chat Room by Kristin Butcher & Daredevil Club by Pam Withers.

Books and Reading; Lit. - American; Lit. - Real Life Stories

### \* **Brain Gym**

K05004 UB  
TA 2003 AMAZON.COM  
This kit, Brain Gym, contains a copy of the following books: Brain Gym, Brain Gym - Teacher's Revised Edition, Edu-K For Kids, Smart Moves, and Switching On. The books Brain Gym & Brain Gym - Teacher's Revised Edition are made up of simple & enjoyable movements & activities that are used with students in Education Kinesiology. These activities make all types of learning easier but are especially effective with academic skills. The solution is whole-brain learning, through movement repatterning and through Brain Gym activities that enable students to access those parts of the brain previously inaccessible to them. The changes in learning & behavior are often immediate and profound, as children discover how to receive information and express themselves simultaneously. The book Edu-K for Kids is for parents and teachers to read and use with children to help them better understand how they learn or block learning at school. Edu-K for Kids follows the life of Tim as he deals with the trials of learning to read, write, and spell. In the book Smart Moves, the body's role in thinking and learning is presented for the first time in a popular readable format, thoroughly supported by scientific research. Neurophysiologist and educator Carla Hannaford tells us why we must move - and show us how to move to fully activate our learning potential. Her remarkable insights will be of great and immediate value to learners of all ages, from the gifted to the so-called learning-disabled. The book Switching On is a manual of hope for the concerned parents & frustrated teachers of the "unteachable" child. Used with love and confidence, these simple techniques bring results in amazingly little time. They represent a revolutionary new approach to learning.

Dyslexia; Education; Special Education; Spec.Ed. - Learning Disabled

### \* **Build Your Own Robot**

K05021 UB

K00841 UB  
IJ PM 1999 SCHOLASTIC

This unit book kit containing the following: Historical diaries of young women's struggles in early America: Girl who chased away sorrow (new Mexico 1864), The great titanic (1912), Freedom (belmont plantation, Va 1859), Journey to the new World (Mayflower 1620), When will this cruel war be over (civil war 1864), A line in the sand (alamo 1836), Winter of red snow (valley forge 1777), Great railroad race (Utah 1868), Heart is on the ground (pa 1880), Ziporah feldman (1903), The light (captive 1763), Storm (civil war 1861)

Hist.U.S. - Immigration; Hist.U.S. - Native Americans

### \* Developing Minds/Educational Care

K02031 UB  
TA PM 2001 ASCD

*Dr. Mel Levine Series* - This unit book kit has two titles: Dr. Mel Levine's Educational Care, 2nd edition: Too many children continue to endure too much avoidable failure and frustration in their school lives. Since the publication of the 1st edition, there has been spectacular growth in public awareness regarding learning differences. Developing Minds: While no list of resources is ever complete, we have drawn upon numerous sources to compile this one. You should continue to note in the Bibliography and Resources sections the books, articles, audio, video, and electronic materials you find helpful that enrich your understanding of the nature of teaching for thinking. This list of human and material resources is supplemented with the Developing Minds Web site, CD-ROMs, and other publications from ASCD listing programs, assessment strategies, organizations, and newsletters. They are contained in a more flexible format so they may be updated periodically.

You will want to browse the Web site periodically. Contained here are checklists to help assess classroom, school, and community readiness and such groups' efforts to teach thinking, and a glossary of terms so that meanings can become more precise and coherent. Rather than have a huge bibliography, several key leaders in the field of cognitive education were invited to recommend a few classics for those who may wish to become students in the field. Also included are biographical sketches of the numerous contributors to this publication, so you may become better acquainted with their credentials, points of view, and experiences. po#s02-04233,02-03914
